Workshop on Intellectual Property Rights (IPR)

Date:28/07/2024

Our college recently hosted a insightful lecture by Adv. Pratapsingh Pardeshi on the multifaceted realm of Intellectual Property Rights (IPR). The esteemed guest speaker provided a comprehensive overview of various forms of IPR, including patents, trademarks, copyrights, and trade secrets. He elucidated the significance of safeguarding intellectual creations, emphasizing their crucial role in driving innovation, fostering economic growth, and protecting the rights of creators and inventors. Adv. Pratapsingh Pardeshi expertly navigated through the complexities of IPR laws, discussing key legal frameworks and their implications. He highlighted the importance of understanding and respecting intellectual property rights to prevent infringement and ensure fair competition. The lecture was particularly valuable for students, providing them with a deeper understanding of IPR concepts and their practical applications in diverse fields. It served as a valuable platform for students to engage in discussions and raise pertinent questions, fostering a deeper appreciation for the importance of protecting intellectual creations.

Workshop on Intellectual Property Rights (IPR) 08/09/2023

Our college had the privilege of hosting a one-day lecture by Dr. Bhaskar Narwate on the topic of Intellectual Property Rights (IPR). The lecture was an insightful and enriching experience, aimed at educating students about the significance of intellectual property in today's globalized world and its impact on various sectors, including technology, business, and creativity.

Professor Narwate, an expert in the field, began the lecture by explaining the basics of Intellectual Property, which refers to creations of the mind such as inventions, literary and artistic works, designs, symbols, names, and images used in commerce. He emphasized that intellectual property is a key driver of innovation and creativity, and understanding how to protect these intangible assets is essential for individuals and organizations alike.

The lecture delved into the four main types of Intellectual Property: patents, copyrights, trademarks, and trade secrets. Professor Narwate explained each type in detail, providing real-life examples to illustrate their significance. For instance, he discussed how patents are granted for new inventions and how copyright protects artistic works such as music, books, and films. He also touched upon trademarks and how they safeguard brands and logos, and trade secrets, which are critical for businesses to maintain a competitive edge.

A significant portion of the lecture was dedicated to discussing the legal framework surrounding IPR. Professor Narwate elaborated on various national and international laws that govern intellectual property, with a special focus on the Trade-Related Aspects of Intellectual Property Rights (TRIPS) agreement, which is administered by the World Trade Organization (WTO). He explained how this agreement aims to standardize the protection and enforcement of intellectual property rights across member countries, promoting fair competition and innovation.

The lecture also highlighted the challenges associated with IPR, such as piracy, counterfeiting, and the complexities of enforcing intellectual property rights in the digital age. Professor Narwate shared valuable insights into how individuals and companies can take proactive steps to protect their intellectual property, including registering their patents, trademarks, and copyrights, and taking legal action against infringement.

Throughout the session, Professor Narwate engaged with the audience, encouraging students to ask questions and participate in discussions. This interactive approach made the lecture more engaging and allowed attendees to deepen their understanding of the topic. The professor also shared tips on how students can pursue careers in intellectual property law, which was particularly inspiring for those interested in this field.

The session concluded with a summary of the key points, and Professor Narwate emphasized the growing importance of IPR in a world where technological advancements and creative expressions are continuously evolving. He urged students to stay informed about IPR laws and consider how they might protect their own intellectual creations in the future.

expressions are continuously evolving. He urged students to stay informed about IPR laws and consider how they might protect their own intellectual creations in the future.

Overall, the lecture was an eye-opening experience for all participants. It provided a comprehensive overview of intellectual property rights and their crucial role in fostering innovation and creativity. The knowledge gained from this lecture will undoubtedly be valuable for students, particularly those pursuing careers in law, business, and technology, as it highlighted the critical need for awareness and protection of intellectual property in the modern world.
